1 - Attaching to wall

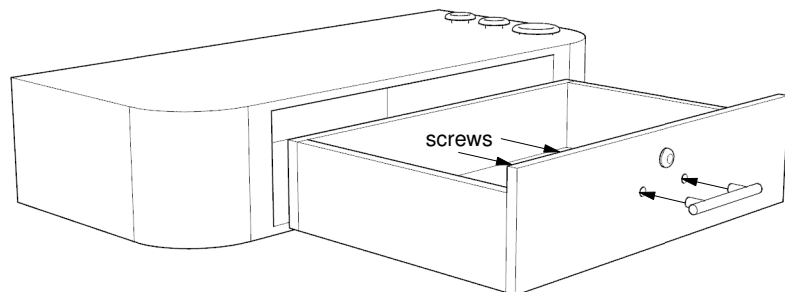

Remove the drawer by pulling it all the way out and then locating the two plastic levers on either side of the drawer. Then push one down while pulling the other up and then slide the drawer out of the tracks.

Next using the given Wall Screws (B), screw all 4 screws into the wall.

2 - Attaching the Handle

Locate the handle and the 2 Short Screws (A) and then insert the screws through the holes in the drawer front. Then start screwing the screws into the handle.

3 - Inserting the Rings

Insert the larger ring in the larger hole and the smaller ring in the smaller hole.
