

Assembly Instructions

Carrera Backwash System
Model #5805

Parts List

Part	Qty.	Description
A	1	Chair
B	1	Shampoo Bowl
C	1	Base
D	4	Allen screws
E	1	Allen Wrench

- Remember to check all bags and boxes for parts before beginning the assembly process.

- A licensed plumber must perform all installation for plumbing and all plumbing related equipment. Failure to do so will result in the warranty being voided. Documentation must be provided to Minerva Beauty, Inc. for all plumbing related warranty issues. At no time should any product containing bleach or barbcide be used to clean or sanitize any of the shampoo sinks. Such products may cause the breakdown of seals and result in leaking.

Step 1

Attach the Chair to the base.

It may be helpful to turn the base onto its side to complete this step. Be careful when laying it to its side and lay a towel or something soft under it to keep it from scratching. Lign up the holes in the bottom of the chair with the holes in the base. Now, using the screws included in the package, screw the chair to the base. Make sure and tighten the bolts with the included allen wrench.

Step 4

With the bowl upside down, remove the nuts and washers attached to the tilting mechanism on the Shampoo Bowl (D). Invert the bowl and position it onto the Base (E) so that the bolts and springs line up with their designated cut-outs. Replace washers, ensuring square washers are facing front and back, and round washers on each side. Tighten nuts to complete bowl attachment.

Step 5

Insert the drain assembly into the bowl. Replace the back cover

Congratulations!

Your Carrera Backwash Shampoo System is now ready for your licensed plumber to install the faucet valve.
