G	Wingnuts	2

① Pre-assembly

Tools: Phillips-head screwdriver may be needed for drawer/door knobs and a wrench may be needed for bolts.

Remove and unwrap all pieces from shipping box. Make sure that the box(es) contain all of the listed parts before beginning assembly.

② Table top Attachment

1) Remove top drawers to access placement for bolts.

2) Line table top (A) up with the base cabinets (B) and screw headless bolts into the holes as shown.

3) Next, place wingnut over head of bolt, then turn to tighten and secure.

③ Wheel Attachment

3) Wheels may need to be attached to bottom of cabinets. If so, screwdriver will be needed to tighten screws.

④ Assembly Complete
